Ezra Nobrega

Software Engineer, Candidate

Wallingford, CT
(203) 675-9579
ezra.nobrega@outlook.com

PROJECTS

Indecisive Decision — ([GitHub](#)) *A Decision maker*

Django, Mysql, Python, HTML, CSS, Javascript

- Four week team project hosted on AWS that used APIs to get restaurants in your local area, and filter them based on user input. Created a backend REST API to provide that information to the user.

Project X — *A VR Fighting Arena (Samples upon Request)*

Unity, C#, OpenXR, Google, YouTube

- Eight week team project building an AI from scratch to make a prototype game using OpenXR and Unity for the Quest 2.

EXPERIENCE

BDL5, *Amazon Sort Center – Sortation Associate*

SEPT 2018 - JULY 2020

- Followed specific systems in order to efficiently get work done throughout the building
- Worked alongside managers to run sections of the building more efficiently.
- Used effective communication skills to help the team.

IT Department, *Gateway Community College – Assistant Technician*

MAY 2018 - SEPT 2018

- Installing OS snapshots on student machines to provide software updates and prep classrooms for upcoming courses.
- Upgrading hardware on student and faculty machines to enable better learning opportunities, and teaching tools.
- Creating debug and general use guides for new devices in the IT department.

DMHAS of Connecticut — *Youth Agent*

JAN 2017 - JUNE - 2018

- Followed the careful guidelines and regulations of FDA investigators doing field work and cataloging various pieces of information daily
- Communicated constantly with the investigator and provided information to think of a plan before an investigation.

EDUCATION

Software Engineering **Certification**, AR/VR and Unity Specialization

Holberton School, New Haven CT — *Software Engineering*

(SEPT 2019 - PRESENT) → Two year long certification program designed by Software Engineers to train new Full-Stack software engineers, using a peer and project based education system.
